PROS & CONDOS

Q My condo is beautiful, but the view isn't the best. How can I distract from the industrial landscape outside?

A Whatever you do, don't block off the window entirely. "We're in Vancouver and it's dark," says interior designer Kendall Ansell. "We never want to get rid of any natural light we might have." Instead, throw up some sheer drapery, which will let in those all-too-scarce sunbeams while still screening a less than stellar view. If drapery isn't your style, pick up a window film to frost the glass—you can have it cut to the exact size of the window, or just put a strip across your sightline—Chelsea Pratt
